

BPSE36V45ART2U

External Battery Module

Scalable Runtime Expansion
For Enterprise Application

The CyberPower BPSE36V45ART2U external battery module significantly extends UPS system runtime during power outages. This external battery module houses six (6) 12V/7Ah batteries and supports daisy-chain installation for easy scalable runtime expansion. Designed to match the performance of the Online S Series, BPSE36V45ART2U supports enterprise application to ensure continuous operation of critical systems and is adapted with plug-n-play DC connectors for easy system installation. Its rugged, industrial-grade metal construction, meeting the same standards as the UPS models, allows for installation in demanding environments.
